

# Art Rules

## Aesthetic Reasons, Norms, and Standards

### A Conference on Aesthetic Normativity

May 19–20, 2017

Utah Museum of Contemporary Art

Salt Lake City, Utah

Aesthetic and artistic normativity pertain to what's good or bad in beauty and art. They speak to what makes something—or someone—beautiful or ugly. We are seeing a renewed attention to these issues by philosophers of art and aesthetics. This conference brings together leading philosophers in this area to propose and assess future directions for research.

We welcome scholars in any discipline to attend. The keynote lecture is free and open to the public.
